Braine-le-Château
Brussels

As a **Junior Backend Developer** specialising in **PHP** and **C#**, I'm driven by a **passion for creating solid, effective software solutions**.

As well as the technical aspects, I attach great importance to **collaboration** and **mutual support within teams**, because I'm convinced that it's **together that we build the best solutions**.

Always **curious** and **eager to learn**, I'm looking for an environment where I can take on **new challenges**, **share my knowledge** and actively **contribute to innovation** and **collective success**.
